Solid 1710-1810 Self Aligning Centre Bearing

\$77.00

CB2106611XSA

Slotted 1710-1810 Self Aligning Centre Bearing

\$60.00

- Self aligning
- Patent-pending design assures optimum alignment of the centre bearing to the driveshaft under all operating conditions
- Provides OEM production customers design and assembly benefits, and aftermarket customers competitive and technical advantages
- Rubber cushion pivots in the bracket, allowing +/- 5 degrees of driveline angularity
- Reduced risk of premature bearing wear due to misalignment
- Provides a common mounting platform on the cross member or mounting bracket.
- No shimming or bracket changes are necessary to achieve desired alignment
- Unique design protects the bearing against contamination without the use of external deflectors
- Backward compatibility with previous Meritor or current competitive designs
- Meritor Gold™ centre bearings should not be replaced with traditional, non-self-aligning centre bearings, due to possible angularity issues
- Ideal for the most popular heavy-duty truck and tractor

The Rigid Industries® Capture™ is the world's only LED light with an integrated GoPro® charging system. The Capture provides a constant power supply and charges your GoPro® Hero 3+ or 4 with the flip of a dedicated switch. High and low light output options provide just the right amount of light for any filming situation. We've optimized the light output and beam pattern to the GoPro® camera's field of view area by using our patented radius housing and a lenticular lens design. The custom Carling® switches provide a solid feel and clean look in your vehicle and the amber lens covers will help your vision and video in adverse conditions. Compatible with GoPro® Hero 3+ and 4. GoPro not Included.
